SCENEdots.... A Rear That Wants To Be SEEN

SCENEdot is a patented material that easily creates a reflective area on most any surface of a fire apparatus. There is the original reflective material or the new 3M diamond grade with sealed edges to fill your apparatus needs. Each one comes in a slick sheet format for easier installation. It takes 2 1/2 sheets to cover 1 square foot.

Diamond Grade SCENEdot sheet \$19.00

Ask **Great Plains Fire** today about installation and pricing for your apparatus.

7'-14' **#35-B-7-14 \$498.00**

8'-16' **#35-B-8-16 \$569.00**

The R.O.S. Platform is a new, innovative idea that makes firefighting roof operations safer than it has ever been. This tool was developed by firefighters for firefighters.

Whether you are performing vertical ventilation, dormer window rescue, chimney fire operations or any other work that requires the use of a roof ladder; this platform provides a safe and solid place for your foot when you need to leave the safety of the ladder.

This is not just a step, it is a working platform. It will provide the necessary support to every member of your department, from the largest to the smallest.

It gives those apprehensive crews the confidence they need to perform roof work without the fear of a slip and fall.

No more placing your life and career on the head of a buried pick axe or halligan tool. No more tripping hazard caused by the handle of a rubbish hook. No more relying on the roof beneath you to support your weight.

SAFETY

OSHA compliant under section 1910.27
Made with light weight non-skid Aluminum diamond plate.
Easily deploys to either side of the ladder.

STOW-ABILITY

Stow-able on any NFPA standard roof ladder.
Easy to stow on both Aerials and Engines.

ACCESSIBILITY

Makes for versatile, safe and secure platform for a variety of roof operations such as vertical ventilations and chimney fires. Deploys to the roof on the ladder. No additional equipment to carry.
If it's already up there, why not use it?

\$620.00

WHELEN®

ENGINEERING COMPANY INC

Rechargeable LED Area Light Kit

- 1,000 lumens on high brightness mode, 500 on low
- Includes 6' tripod, AC / DC power supplies and carrying case
- Rechargeable Li-ion battery
- Multi-angle tilt and swivel design with magnetic base
- Constructed from lightweight 6061-T6 aluminum

NSR-1514C \$279.28

INTRANT™ Intrinsically Safe Dual-Light™ Angle Light

- CREE LED technology – 50,000+ hours LED life
- 8 User-selectable brightness settings for the Flashlight and Floodlight including a 20 Lumen Survival Mode
- Dual-light (both the flashlight & floodlight on at the same time) provides for maximum lighting versatility and user safety
- 3 AA batteries (included)
- Upgradeable to rechargeable by adding Lithium-ion Battery Pack, Charger and AC and/or DC Power Supply
- Limited Lifetime Warranty

XPP-5566RX \$74.95

Tactical Fire Light w/ Mult-Angle Helmet Mount

- 180 Lumens
- 3 Hours run-time
- Momentary or constant-on
- Can be mounted to virtually all Fire Helmets and Hard Hats
- 140 Degrees of adjustability
- Meets the requirements of NFPA-1971-8.6 (2013)

FDL-300R-K01 \$51.95

Intrinsically Safe Dual Light Lantern-Rechargeable

- 210 Lumen flashlight for 12 hours
- Flashlight/Floodlight/Dual-Light™
- User-selectable brightness settings on Flashlight & Floodlight with 30 Lumen Survival mode
- cULus, ATEX, and IECEx certified Intrinsically Safe
- Meets the requirements for NFPA-1971-8.6 (2013)
- Charger meets requirements of NFPA-1901 (2009)

XPR-5580R \$224.95

Helmet-mounted Multi-Function Dual Light Flashlight

- Flashlight / Floodlight / Dual-Light™
- User-selectable brightness on Flashlight & Floodlight including 15 Lumen Survival mode on Floodlight
- Works with virtually all fire helmets and hard hats
- Meets the requirements for NFPA-1971-8.6 (2013)

NSP-4650B \$109.95

Safety Light/ Flashlight Combo Kit

- Has both a tight-beam long-throw flashlight and a wide-angle two colored flashing safety light array
- Lighting modes: momentary and constant-on flashlight, full-power constant-on white floodlight, flashing amber safety light & dual-light (both the flashlight & floodlight or flashing safety light array at the same time)
- Two button design top: flashlight, bottom: floodlight/safety light
- Powered by 4 AA batteries (included)
- Kit includes one heavy weighted magnetic base and one red safety cone

NSP-1170-K01 \$55.45

Fortem Helmet Mount Light

XPP-5466R \$107.45

- Intrinsically safe helmet mount dual light
- Flash light flood light dual light
- 250 lumens
- 45 degree angle flood light
- Rear facing green safety LED light
- Works with virtually all helmets
- Meets requirement of NFPA 1971-8.6 2013

Forge Helmet Mounted Light

- Two models to choose from with the same features
- Single push button on used easily with gloved hand
- 360 lumens on high mode
- Rear facing green light

Intrinsically safe model **XPP-5465R \$103.95**

Standard model **NSP-4640B \$99.95**

Integritas intrinsically safe rechargeable lantern

XPR-5582RX \$249.95

- LED technology with a multi position tilting head
- 1750 lumens with 5 hour run time and low beam capable
- Rear facing green safety lights
- Low battery indicator and shoulder strap
- Locking snap charger
- Integrated lithium-ion rechargeable battery
- Light meets NFPA-1971-8.6 2013
- Charger meets NFPA-1901-14.1 10.2 2016

Intrinsically safe flash light with multi angle mount

- Charger meets requirements of NFPA-1901 (2009)

XPR-5581RX \$281.95

argus®

thermal imaging from Avon Protection

MI-TIC-E-1

INTRODUCTION

The Mi-TIC E is the world's smallest high resolution thermal imager for fire fighting applications. The camera provides a crystal clear image with dynamic range up to 760°C (1400°F) and at the same time see very low temperature objects, which is ideal for casualty searches. Every Mi-TIC E is supplied with a unique dual use desk-top/in-truck charger station which securely retains and charges both the thermal imager and a spare battery. The charger stations can be daisy-chained together, up to a maximum of 6 units.

PERSONAL

Weighing approximately 750g (26oz) the Mi-TIC E is a small format thermal imager that can be easily and comfortably held in the palm of your hand. Unlike many thermal imagers, the Mi-TIC E design allows it to be worn in multiple ways – in the hand, inside a pocket, clipped outside a pocket, clipped to a lanyard or hung around the neck

MI-TIC-E-1 \$4,899.00

MI-TIC-320-3

The Mi-TIC 320 is part of the argus range of thermal imaging cameras and is the world's smallest NFPA 1801 certified high resolution thermal imager for fire fighting applications. The camera provides a crystal clear image with a superb dynamic range: you can clearly view extremely high temperatures without whiteout, and at the same time still see very low temperature objects, which is ideal for casualty searches. Every Mi-TIC 320 is supplied with a unique dual use desk-top/in-truck charger station which securely retains and charges both the thermal imager and a spare battery. The charger stations can be daisy-chained together, up to a maximum of 6 units.

PERSONAL

Weighing approximately 750g (26oz) the Mi-TIC 320 is a small format thermal imager that can be easily and comfortably held in the palm of your hand. Unlike many thermal imagers, the Mi-TIC 320 design allows it to be worn in multiple ways – in the hand, inside a pocket, clipped outside a pocket, clipped to a lanyard or hung around the neck.

MI-TIC-320-3 \$6,299.00

argus®

thermal imaging from Avon Protection

MI-TIC^S

The lightest and most affordable NFPA 1801 certified thermal imager.
With a 3.5" display at only 1.8 lbs
Temperature range of -40°F to 2000°F
5 second start-up time

Standard configuration includes
2x zoom with 3 button control
Hot and cold spot tracker
Laser pointer
Video recording
Lanyard, charger, spare battery

Standard battery 1100 MAh, 6.6 V standard capacity battery with 2 hour battery life.
Less than 2 hour charge time
Includes lanyard, truck charger, spare battery

MI-TIC-S-3 \$6,999.00

Sensit P100 Personal Gas Meter - One button operation. 2 year life before service needed. Limited 2 year warranty

Carbon Monoxide #912-00000-03 \$249.90
 Hydrogen Sulfide #912-00000-05 \$249.90
 Oxygen #912-00000-13 \$249.90
 Hydrogen Cyanide #912-00000-07 \$427.30

Sensit P400 is a multi gas personal monitor designed to warn the user of hazardous gases in their working environment. The P400 can be configured with 1 to 5 sensors also with or without pump

Four Gas without pump #923-FC000-40 \$989.70
 Four Gas with pump #925-FC000-40 \$1,382.30

To add fifth sensor choose from the following choices:
 C12, NO2, HCN, PH3, SO2, ETO Add to above cost (-5X) \$357.90

Four gas calibration kit with case #881-00084 \$670.70

Sensit HCN CO The new Sensit HCN CO with its rugged construction and powerful rotary pump, hot air probe and bright LCD display makes it perfect for testing ambient air and hot gas samples. Infrared communication allows printing of test results to a compact printer (accessory) or PC. Simple and convenient

#913-FC000-12 \$1,370.60
 Calibration Kit 881-00058 \$978.10

Sensit Gold Series - Leak detection and gas monitoring combined in a single package. These instruments can be custom configured to meet your needs when detecting combustible gases in the LEL range, locating combustible gas leaks in the PPM range, measuring CO and/or H2S. All instruments are equipped with an internal pump for constant sampling. Audible and visual alarms warn the operator of hazardous conditions.

Sensit Gold Four Gas #909-FC000-H \$2,462.70
 Sensit Gold Four Gas and Cal Kit #909-FC000-H-Cal \$2,888.80
 Calibration Kit Only #881-00030 \$706.40

Sensit TKX

The TKX is a state-of-the-art multi gas detector used to rapidly locate combustible gas leaks. High sensitivity allows rapid leak detection and tick rate control to pinpoint leaks. Low initial cost and low maintenance make the SENSIT® TKX the perfect choice.

High sensitivity allows immediate leak detection

Audio and visual leak indicator

Adjustable tick rate to pinpoint leaks fast

Solid state sensor

\$2,354.00

Pro500 Tank Liner The Ultimate Replacement liner for your existing folding Frame Tank

- Fits in your standard tank rack and any standard frame including our Skinny Tank, which works great on one-lane backroads!
- No need to remove frame uprights with Pro500 liner
- Minimal setup— Unfold, unhook, & Go
- Bladders can be deployed and folded by just one person
- On a Slope? No Problem! Bladders will not cause Pro500 to roll over!
- Need more gallons? Deploy as many bladders as needed or use as a regular tank
- The Pro500 bladders can be custom sized. Bladders can be added and made of different sizes.

PYRO

20gpm skids for Wildland, Fast Attack or First Response Vehicles

MORE EFFECTIVE. Ultra High Pressure (UHP) breaks down a standard water pressure droplet to 64 micro droplets using a pressure of up to 1400psi. This creates 12 times the surface area to capture more heat energy. Resulting in 90% of the water used efficiently to put out the fire. Conventional droplets are too large to be effective, only the very outside layer is effective, up to 85- 90% of the water goes right through the fire and ends up as runoff. Takeout far more fire with far less water!

SAFER. Smaller, lighter droplets have better 'hang-time'. Droplets will suspend longer in the upper thermal layers, reducing heat in the most dangerous part of the fire. These droplets are light enough to be drawn into the flowpath of the fire sending suppression to where it is needed most. These micro droplets will get into every nook and cranny of a vehicle or house helping to extinguish fires that aren't immediately visible.

FASTER. More efficient use of the water allows a fire department to be effective with far less water enabling them to reduce the size of the vehicle needed. A smaller vehicle is far more mobile and can get to the fire much quicker. These vehicles can also get closer to the fire itself. The PyroBlitz system has 200' of charged line, further reducing the deployment time needed at the fire scene. With fires burning 8 times faster these days it is even more critical to get on the scene and flowing water faster.

K3 FIRE

COMPACT UHP SOLUTIONS

TURBOPIERCE

Quickly pierce vehicles, concrete block walls, steel, or any known construction material and get UHP water into hard to reach fires without adding oxygen. The gun is complete and ready to operate with no additional components. Simply connect directly to an existing UHP skid. The compact tool easily fits in any truck cabinet and includes a durable custom case. Gun magazine holds the abrasive and is easily refillable in the field.

- An abrasive waterjet piercing gun for ultra-high-pressure (UHP) firefighting
- Consists of a handheld gun, refillable abrasive magazine and custom case
- No electronics or wireless devices
- Button for instant on/off abrasive
- Mixing takes place at the end of the gun barrel and does not require abrasive to be “pushed”, as a highspeed wear element, through any hose or extremity
- Abrasive material is housed in a quick-change magazine. The magazine is integral to the gun shoulder-stock
- Covered by a free five year warranty

Dimensions 45.5 x 11 x 2.6 inches

Weight 15 lbs (with loaded abrasive magazine)

Requirements 10 - 20 GPM Water Input 1200 - 2000 PSI Water Input

\$7,500.00

The Flame Glove

- The first non-leather glove certified all fabric glove certified to NFPA 1971-2018
- The Flame glove withstands 60+ washes which is more common now as the result of cancer mitigation protocols
- The exterior shell of this glove is Kevlar fabric
- The Kevlar fabric on the palm has been treated with a special formulation of silicone to resist wear of the fabric and to provide a secure, firm grip, wet or dry
- The lining of the glove includes multiple layers of Kevlar and Nomex
- The moisture barrier is Porelle FR and will outlast the useful life of the glove and is guaranteed not to pull out

INNOTEX GRAY HOOD

- Shields vulnerable area between helmet & coat while maintaining air permeability.
- A 3 layer system: The exterior layer is a 20%/80% Nomex/Lenzing blend. The middle layer, a proprietary version of Stedair® PREVENT, blocks more than 99% of particulates ranging from 0.1 to 1.0 microns. The inner liner is a smooth, cooling multi-filament viscose.
- Allows for air permeation, which is essential to reduce the risk of increased core temperature.
- Uses a particulate blocking layer that reduces the risk of contamination by particulates 0.1 to 1.0 microns (μm) found in the combustion of structural fires by >99%.

INNOTEX ENERGY™

Welcome to the newest technology in turn-out gear

Airflow™ (Patent Pending)

Airflow™ (Patent Pending) is a three-dimensional padding system that cushions the SCBA while creating Airflow™ channels.

Built with heavy-duty mesh and precisely shaped, closed-cell foam, the Airflow™ channels manage perspiration while eliminating the sealed-envelope effect area when wearing an SCBA.

Coat features

Ergo design for greater mobility
Variable height collar, transition from 4" back to 3" front
NO-GAP™ liner attachment
Airflow™ three dimensional padding system
Reflective piping at the seams
Dual metabolic zones
NO-BULK™ front closer
"Full Motion" NoSeam™
Segmented trim
Angled cuffs

NO-GAP™ liner attachment
