SCENEdots…. A Rear That Wants To Be SEEN

SCENEdot is a patented material that easily creates a reflective area on most any surface of a fire apparatus. There is the original reflective material or the new 3M diamond grade with sealed edges to fill your apparatus needs. Each one comes in a slick sheet format for easier installation.
It takes 2 1/2 sheets to cover 1 square foot.

Diamond Grade SCENEdot

Ask **Great Plains Fire** today about installation and pricing for your apparatus.

Smart Sequential Road Flares

RDS™ (Rapid Deployment System): Automatically turns on flare when removed from the case

Tilt sensor automatically directs light output to optimize driver awareness

"Pair" mode system allows for single or multiple sets to be synchronized

4 flash patterns to choose from (2 sequential, 1 simultaneous, 1 steady-burn)

Preferred pattern, deployment order, and gravity activation mode settings are saved into memory for next deployment

Automatic synchronization of flares; No programming, no pre-numbering; turn and deploy; That Easy!

Powered by Lithium-ion rechargeable battery (1500 fully depleted charge cycles)

20+ hour runtime (flash pattern dependent)

6 hour recharge time from a completely depleted battery

Charge all flares at once (using dual purpose carrying case)

Kit includes: Carrying/Charging Case, DC 12/24V Vehicle Plug, AC 110/240V Wall Plug, 2 Year Warranty

Generation-2 flare - 22,600 kg (50,000 lbs) of crush strength.

IP66 Water and Dust Proof Rating

Smart Med-Evac Landing Zone Kit

RDS™ (Rapid Deployment System): Automatically turns on flare when removed from the case

Standard Configuration includes 12 High-Power Infrared LEDs, 4 High-Power Visible Green LEDs

Powered by Lithium-Ion Rechargeable Battery

20+ Hour of runtime (continued flash)

6 hour recharge time from a completely dead battery

30,000 lbs (13,600 kg) crush strength (lab tested and certified)

IP67 water and dust rating

Purchase include: Carrying/Charging case, 5 Radio-Connected LZ Flares, 5 Ballasted Range Extender Bases, DC 12/24V Vehicle Plug, 110/240V Wall plug

NIGHT STICK
Life Depends on Light™

Rechargeable LED Area Light Kit

- 1,000 lumens on high brightness mode, 500 on low

- Includes 6' tripod, AC / DC power supplies and carrying case

- Rechargeable Li-ion battery

- Multi-angle tilt and swivel design with magnetic base

- Constructed from lightweight 6061-T6 aluminum

NSR-1514C

INTRANT™ Intrinsically Safe Dual-Light™ Angle Light

- CREE LED technology – 50,000+ hours LED life

- 8 User-selectable brightness settings for the Flashlight and Floodlight including a 20 Lumen Survival Mode

- Dual-light (both the flashlight & floodlight on at the same time) provides for maximum lighting versatility and user safety

- 3 AA batteries (included)

- Upgradeable to rechargeable by adding Lithium-ion Battery Pack, Charger and AC and/ or DC Power Supply

- Limited Lifetime Warranty

XPP-5566RX

Tactical Fire Light w/ Mulit-Angle Helmet Mount

- 180 Lumens
- 3 Hours run-time
- Momentary or constant-on
- Can be mounted to virtually all Fire Helmets and Hard Hats
- 140 Degrees of adjustability
- Meets the requirements of NFPA-1971-8.6 (2013)

FDL-300R-K01

Helmet-mounted Multi-Function Dual Light Flashlight

- Flashlight / Floodlight / Dual-Light™

- User-selectable brightness on Flashlight & Floodlight including 15 Lumen Survival mode on Floodlight

- Works with virtually all fire helmets and hard hats

NSP-4650B

- Meets the requirements for NFPA-1971-8.6 (2013)

Intrinsically Safe Dual Light Lantern-Rechargeable

- 210 Lumen flashlight for 12 hours
- Flashlight/Floodlight/Dual-Light™
- User-selectable brightness settings on Flashlight & Floodlight with 30 Lumen Survival mode
- cULus, ATEX, and IECEx certified Intrinsically Safe
- Meets the requirements for NFPA-1971-8.6 (2013)
- Charger meets requirements of NFPA-1901 (2009)

XPR-5580R

Safety Light/ Flashlight Combo Kit

- Has both a tight-beam long-throw flashlight and a wide-angle two colored flashing safety light array

- Lighting modes: momentary and constant-on flashlight, full-power constant-on white floodlight, flashing amber safety light & dual-light (both the flashlight & floodlight or flashing safety light array at the same time)

- Two button design top: flashlight, bottom: floodlight/safety lightPowered by 4 AA batteries (included)

- Kit includes one heavy weighted magnetic base and one red safety cone

MULTI-POSITION TILT-HEAD DESIGN

- 10 run time on either flood or flash light mode
- 900 lumen dual light mode
- Intrinsically safe
- Dual red LED tail lights for safety
- cULus certified
- IP–67 dustproof/ Waterproof
- Meets NFPA-1971-8.6 2013
- Charger meets NFPA-1901-14.1.10.2

XPR-5586GX

Intrinsically Safe Dual Light Lantern-Rechargeable

- 1100 Lumen flashlight
- Flashlight/Floodlight/Dual-Light™
- cULus, ATEX, and IECEx certified Intrinsically Safe
- Meets the requirements for NFPA-1971-8.6 (2013)
- Charger meets requirements of NFPA-1901 (2009)

XPR-5581RX

argus®

thermal imaging from Avon Protection

MI-TIC-E-1

INTRODUCTION

The Mi-TIC E is the world's smallest high resolution thermal imager for fire fighting applications. The camera provides a crystal clear image with dynamic range up to 760°C (1400°F) and at the same time see very low temperature objects, which is ideal for casualty searches. Every Mi-TIC E is supplied with a unique dual use desktop/in-truck charger station which securely retains and charges both the thermal imager and a spare battery. The charger stations can be daisy-chained together, up to a maximum of 6 units.

PERSONAL

Weighing approximately 750g (26oz) the Mi-TIC E is a small format thermal imager that can be easily and comfortably held in the palm of your hand. Unlike many thermal imagers, the Mi-TIC E design allows it to be worn in multiple ways – in the hand, inside a pocket, clipped outside a pocket, clipped to a lanyard or hung around the neck

MI-TIC-E-1

MI-TIC-320-3

The Mi-TIC 320 is part of the argus range of thermal imaging cameras and is the world's smallest NFPA 1801 certified high resolution thermal imager for fire fighting applications. The camera provides a crystal clear image with a superb dynamic range: you can clearly view extremely high temperatures without whiteout, and at the same time still see very low temperature objects, which is ideal for casualty searches. Every Mi-TIC 320 is supplied with a unique dual use desktop/in-truck charger station which securely retains and charges both the thermal imager and a spare battery. The charger stations can be daisy-chained together, up to a maximum of 6 units.

Weighing approximately 750g (26oz) the Mi-TIC 320 is a small format thermal imager that can be easily and comfortably held in the palm of your hand. Unlike many thermal imagers, the Mi-TIC 320 design allows it to be worn in multiple ways – in the hand, inside a pocket, clipped outside a pocket, clipped to a lanyard or hung around the neck.
MI-TIC-320-3

argus®

thermal imaging from Avon Protection

Mi-TICS

The lightest and most affordable NFPA 1801 certified thermal imager.
With a 3.5" display at only 1.8 lbs
Temperature range of -40°F to 2000°F
5 second start-up time

Standard configuration includes
2x zoom with 3 button control
Hot and cold spot tracker
Laser pointer
Video recording
Lanyard, charger, spare battery

Standard battery 1100 MAh, 6.6 V standard capacity battery with 2 hour battery life.
Less than 2 hour charge time
Includes lanyard, truck charger, spare battery

Sensit HCN CO The new Sensit HCN CO with its rugged construction and powerful rotary pump, hot air probe and bright LCD display makes it perfect for testing ambient air and hot gas samples. Infrared communication allows printing of test results to a compact printer (accessory) or PC. Simple and convenient
#913-FC000-12
Calibration Kit 881-00058

SENSIT® HXG-2d

The SENSIT® HXG-2d gas detector pinpoints leaks quickly with its true digital display and electronic tick control. This multi-gas detector is ideal for natural, butane and propane gas leaks. The SENSIT® HXG-2d is safe, durable and reliable.
- Direct PPM readout
- Direct "LEL" percent readout
- Electronic tick rate control to pinpoint leaks
#906-FC000-08

SENSIT® GOLD G2

The SENSIT® GOLD G2 is the most versatile and user-friendly SENSIT hand-held gas detector available. The "G2" can be configured for combustible gas readings in PPM, LEL, and /or percent volume, as well as a variety of toxic sensors and oxygen. The SENSIT® GOLD G2 is ideal for leak location and confined space applications.
- Digital "Tick" Control for fast leak pinpointing
- LED warning lights and loud audible alarm indicating potential danger
- Internal memory stores operational and calibration data
- Battery strength indicator
- Exceptional water-resistant housing
#911-FC000-08
#881-00030 (manual calibration kit)

HUSKY
Portable Containment

Standard Folding Tanks
500-5000 Gallons
All frame tanks are 29" tall
Includes "Easy Lift" handles
22oz vinyl wall with 28oz vinyl base.

Skinny™ Tank
Folding frame tank with narrow design. It gives you more options for where you can set up your drop tank.

Call today for pricing!

Replacement Liners & Frames
Contact **Great Plains Fire** for pricing

Easy Lift Handles
Easy lift handles come standard on all Husky drop tanks, making tear-down quick and easy!

Quick Dump Option
Drain your tank in seconds for quick tear-down!

Portable Drop Tank Racks built to any size drop tank. Includes front and rear wind dam, lever lock hold downs, heavy duty hinges , and aluminum/stainless steel construction.

Pro500 Tank Liner The Ultimate Replacement liner for your existing folding Frame Tank

- Fits in your standard tank rack and any standard frame including our Skinny Tank, which works great on one-lane backroads!
- No need to remove frame uprights with Pro500 liner
- Minimal setup– Unfold, unhook, & Go
- Bladders can be deployed and folded by just one person
- On a Slope? No Problem! Bladders will not cause Pro500 to roll over!
- Need more gallons? Deploy as many bladders as needed or use as a regular tank
- The Pro500 bladders can be custom sized. Bladders can be added and made of different sizes.

HEN

THE 3C'S OF SUPPRESSION
Coverage, Cooling and Contraction

COVERAGE
More coverage, less effort.

The HEN Bladed Pattern redefines coverage by coating walls, ceilings, floors, and filling the entire compartment. It achieves faster critical flow with less nozzle movement and saturates fuel and gas layers completely.

COOLING
Cool faster. Protect Better.

The Bladed Pattern delivers aggressive cooling with dense, intact droplets that work through gas layers instantly. It absorbs heat rapidly and cools surfaces without secondary impacts.

CONTRACTION
Contraction that enhances safety.

Large droplets from the Bladed Pattern fill the space and contract heated gases effectively. It reduces heat quickly, slows fire spread, and requires less effort at the nozzle.

FIREFIGHTER APPROVED

FCL-X™

THE ONLY LITHIUM-ION BATTERY FIRE EXTINGUISHING AGENT THAT WORKS.

FCL-X reduces toxic fluoride exposure by neutralizing harmful gases released during lithium-ion battery fires.

FCL-X is a water-based proprietary solution that extinguishes and eliminates re-ignition of lithium-ion fire.

FCL-X buffers the lithium oxidation reaction to limit heat and hydrogen generation by forming non-hazardous salts.

FCL-X is specifically designed to mitigate the complex chemical reactions caused by lithium-ion battery fires.

More Information Visit

www.FULLCIRCLELITHIUM.com

sales@fullcirclelithium.com

The Facts:

FCL-X is a water-based, PFAS-free extinguishing agent specifically engineered to combat lithium-ion battery fires. Unlike traditional extinguishers, FCL-X rapidly cools, neutralizes thermal runaway, and prevents dangerous reignition—while significantly reducing toxic gas exposure. Proven effective in full-scale EV and battery storage fire scenarios, FCL-X delivers fast, safe, and reliable suppression where other agents fall short.

MicroCafsUSA – Skid 15

13.2 gallon skid unit with regulator for CGA347 valve.
Patented MicroCAFS USA technology provides 2 qualities of compressed air foam wet or dry with push of a slide bolt.
Low operating pressure with high working range for safe operation.
Typical CAFS droplet size for thick foam blankets with high extinguishing performance.
Long operation time provides maximum effectivity.
Every mixable and water storable <u>FOAM </u>agent can be used.
The unit can be easily mounted on UTV' s, boats, truck compartments and many other vehicles.

Technical data

Extinguishing capacity:	50 liters / 13.2 gal
Compressed air cylinder (SCBA):	30 min. to 60 min. SCBA / 4500 psi
Operating pressure:	approx. 7 bar / 100 psi
Weight: approx.:	96.5 kg / 213 lbs filled
Foam agent at 50 litres:	approved foam agent, varies on type of application, e.g. 16 oz Class A at 1%
Discharge range:	up to approx. 15 m / 49 feet (wet)
Temperature range:	min. + 0°C / 32°F to max. + 60°C / 140°F
Working time Wet foam:	approx. 130 seconds
Flow rate approx.:	23 l/min (6.1 gal/min)
Dry foam: approx.:	390 seconds
Flow rate approx.:	7.7 l/min (2 gal/min)
Hose length:	1" NH x 50' forestry hose
Dimensions:	20" x 31" x 19.5" (H x L x W)
MicroCafsUSA - Portable 3

Portable CAFS unit with 3 gallon stainless steel water tank.
Regulator and mixing chamber with union nut assembly with sliding bolt for changing the foam quality to wet or dry.
Adjustable padded shoulder strap.
Including Regulator for CGA347.

Technical data

Finished Foam:	up to 30 gallons wet
	up to 60 gallons dry
Operating Time:	1m 30s wet
	2m 39s dry
Discharge Range:	28 - 45 ft depending on Nozzle Type
Vessel Capacity:	3.00 gal stainless steel tank
Operating Pressure:	115 - 135 psi approx.
Air Cylinder:	19cf - 87cf / 2216-4500 psi SCBA 15 min. up to SCBA 60 min.
Temperature:	32° F - 140 ° F
Weight:	empty: 20 lbs
	filled: 45 lbs
Size:	27.5x11.6x8.2 in HxWxD

K3 FIRE
COMPACT UHP SOLUTIONS

TURBO PIERCE

Quickly pierce vehicles, concrete block walls, steel, or any known construction material and get UHP water into hard to reach fires without adding oxygen. The gun is complete and ready to operate with no additional components. Simply connect directly to an existing UHP skid. The compact tool easily fits in any truck cabinet and includes a durable custom case. Gun magazine holds the abrasive and is easily refillable in the field.

• An abrasive waterjet piercing gun for ultra-high-pressure (UHP) firefighting
• Consists of a handheld gun, refillable abrasive magazine and custom case
• No electronics or wireless devices
• Button for instant on/off abrasive
• Mixing takes place at the end of the gun barrel and does not require abrasive to be "pushed", as a highspeed wear element, through any hose or extremity
• Abrasive material is housed in a quick-change magazine. The magazine is integral to the gun shoulder-stock
• Covered by a free five year warranty

Dimensions   45.5 x 11 x 2.6 inches
Weight   15 lbs (with loaded abrasive magazine)
Requirements 10 - 20 GPM Water Input 1200 - 2000 PSI Water Input

Contact Great Plains Fire to schedule a demonstration.

K3 FIRE
COMPACT UHP SOLUTIONS

DIRECT*DRIVE*
Ultra High Pressure Skid

Due to its advanced drive-train, **DIRECT***Drive* is hundreds of pounds lighter, much smaller and more efficient than other systems in its class. That means a bigger variety of vehicle options and plenty of power.

Stainless steel pump house and panel - nothing to rust

Solid state, water resistant electronics - no mechanical relays to fail or corrode

Advanced helical gearbox for a quieter run and more efficient transfer of power

Compressed air blowout & antifreeze winterization / storage ports

Designed with maintenance in mind - all filters are easy to see and reach

22 HP engine with electric start Manual and Auto throttle selection system

Electric rewind reel with 3/4" UHP hose and quick connect couplers

Foam Proportioning system (0.5, 1.5, 2, 3, 6% selections)

Electronic water and foam level gauges, low water and foam flashing indicators with low water audible alarm

Auto water & auto foam tank fill systems

Full LED pump panel light bar, VMUX electronics, resettable circuit breakers and all connectors are IP 67 rated for water resistance

Gives you 16 times the water surface area for quicker fire knock down.

Droplets are lighter and have longer hang-time. More heat is effectively absorbed per gallon of water used- truck water will last 6 times longer.

Droplets are just light enough to follow the fire flow path & get drawn right into the flames. No need to get as close to the actual fire.

90-95% of the water is used in the fire, meaning less water damage and carcinogen laden water run-off. Great way to get out ahead of the green technology movement.

A ¾" UHP line is far more maneuverable for car fires or weaving through brush and trees on wildland scenes. Easy to get in & around room and content fires.

Lighter line & lower flow rate lend themselves better to limited staffing & quick attack.

E Series Washer Extractor

Designed to drive down water, electrical and gas costs while improving productivity, E-Series High-Performance Washer-Extractors deliver high-speed extract, an easy-to-install freestanding design, unmatched durabilty and the ultimate in programmability! E-Series commercial washers deliver more performance using less labor, natural resources and chemicals. The E-Series front-load washer is available in 20- to 255-pound capacity models.

Call for Pricing

Groves EX22 Washer Extractor

- Front load design
- Commercial quality construction
- 22 lbs. capacity
- Automatic soap dispenser compatible
- Utilizes standard plumbing hook ups
- Requires only 120v ac
- Easy to use, preprogrammed wash cycles

#EW-22

Optional auto soap dispenser #ADS-SEK0-1 PUMP

Groves Vortex DC2 Drying Cabinet-2 Gear

- Programmable control and NFPA 1851 Compliant
- Gentle drying without mechanical action
- Compact design, easy installation and delivered pre-assembled
- Capacity for drying 2 sets of turnout gear or large protective garments
- Temperature tracking system with advanced control sensors
- Retractable hanging system
- Overheat protection and high energy efficiency

Included accessories: hanging rod, two Dry Kwik coat hangers, three tiers of retractable hanging racks, two ventilated shelves, door hook rack (13 hooks), and two door bars

ALL FAN PRICES INCLUDE FREIGHT
Please call *Great Plains Fire* if you do not see the SuperVac fan for your department needs.

1-Carbide-Tipped Chain:
Converts select battery-powered chain saws into a light-duty firefighting saw capable of cutting through asphalt shingles, hurricane glass, roofing materials and more; easily sharpens with diamond equipment
2-Modified Bar:
Allows the wider chain gauge to operate with added room, putting less strain on the saw for repeat use; the bar is slotted to work with Super Vac's Quick Silver depth gauge
3-Quick Silver Depth Gauge:
Prevents the blade from cutting too deep during roof ventilation

SV789-16

www.GreatPlainsFire.com

Super Vac 18" Variable Speed Battery Fan

1. Compact, Roll-Cage Frame: Features a tough yet lightweight aluminum frame to protect key components while providing a compact, lightweight design.

2. 180-Degree Tilt: Provides the largest tilt range among battery fans, allowing airflow to be directed virtually anywhere.

3. DeWalt FLEXVOLT or the Milwaukee Lithium Ion Batteries: Provide up to 45 minutes of max airflow, depending on battery selection.   Also, the shore power option allows you to run off of 120v AC for unlimited use.

4. Polymer Blade: Minimizes weight; Super Vac's single-piece cast aluminum blade is available by request.

5. Precision-Spun Steel Shroud with StreamShaper Guard: Shroud provides durability with max airflow, while the StreamShaper guard allows for flexible setback; Air Cone Guard available by request.

Genesis HDS (Portable Hose Decon System)

Firefighters are exposed to toxic carcinogens from contaminated attack hose lines after every fire. The HDS Portable Hose Cleaning System is designed to efficiently remove contaminants on-site before firefighters leave the fire ground. Lightweight, battery-powered, and easy to use, it ensures a cleaner fire ground and reduces long-term cancer risks.

Portable & Mobile – Easy to transport and deploy.
Single Operator Use – No extra manpower is needed.
Battery-Operated – No external power required.
Fast & Effective – Cleans hoses in seconds.
Reduces Carcinogen Exposure – Scientifically tested & firefighter-approved.

The Flame Glove

- The first non-leather glove certified all fabric glove certified to NFPA 1971-2018

- The Flame glove withstands 60+ washes which is more common now as the result of cancer mitigation protocols

- The exterior shell of this glove is Kevlar fabric

- The Kevlar fabric on the palm has been treated with a special formulation of silicone to resist wear of the fabric and to provide a secure, firm grip, wet or dry

- The lining of the glove includes multiple layers of Kevlar and Nomex

- The moisture barrier is Porelle FR and will outlast the useful life of the glove and is guaranteed not to pull out

LIFEVAC

Authorized Dealer

LifeVac is intended to be used after all choking rescue protocols have failed and is currently implemented in fire departments, police departments, and EMS agencies across the US and internationally. Current BLS protocols all revolve around generating pressure underneath the object obstructing the airway. What differentiates LifeVac is that it implements noninvasive suction from the mouth of the choking victim.

LifeVac uses a patented design that involves a one-way valve system which means that when applied, LifeVac vents air OUTSIDE the unit and does not push air into the victim. The rescue device simply uses a short burst of suction, with minimal air volume, to mimic a forceful cough. When the handle of the plunger is pushed down, air escapes out the sides of the valve and not into the victim's airway; when the plunger handle is pulled back, it generates negative pressure, and suctions out the lodged material.

Suction equipment is a vital part of emergency care and many states have already built this into their rescue protocols. Supported by a growing number of peer-reviewed medical studies and expert opinions that validate LifeVac as a safe and effective device for airway clearance, we strongly believe that LifeVac is an essential piece of gear that can assist lay people and first responders in choking-related emergencies.

1 Place the mask over mouth and nose   **2** Push down the mask   **3** Pull up for suctioning what's in the throat

ARM XR Automated Chest Compression Device

Defibtech's ARM XR is an automated chest compression system that helps emergency personal deliver continuous, high-quality CPR for patients in cardiac arrest. Easy to deploy and use, ARM XR allows first responders to transition from manual to mechanical CPR in seconds, and maintain continuous compressions over long durations and during transport.

With ARM XR, EMS Teams can:

- **Provide high-quality CPR with appropriate compression depth and per minute rate**
- **Run a cardiac arrest code with smaller teams & reduce fatigue/stress**
- **Treat large & small patients with automated compression depth adjustment**
- **Extend budgets with our cost-effective, rugged mechanical CPR system**

Kit comes with the following:
ARM, compression module, compression cup, battery, patient back board, chest strap, wrist straps and carry case. **#RCF-A2000EN**

Accessories:
Dual Battery Charging Cradle **#RCF-RBC-U1000NA**
Battery Pack **#RCF-RBP-G1000EN**
Power Module/Charger **#RPM-G1000NA**

The AED that Started it All
Lifeline AED Semi-Automatic Defibrillator

Winner of several design and innovation awards, the Lifeline AED is simple and intuitive with a fully integrated design which means there are no lids, no moving parts, or exterior cases that could confuse or delay a rescuer in an emergency. Lifeline AEDs are built to the demanding standards of professional emergency personnel, and meet U.S. Military "drop and shock" specifications. All mission critical features necessary to provide the most advanced treatment for sudden cardiac arrest are included.

With speed and ease, the Lifeline AED leads the user through the rescue:

- Two-button operation
- Built-in metronome produces a steady beat during CPR
- Dust protected, spray and water resistant (rated IP54)
- Frequent and automatic self-tests: Daily, weekly, monthly, and quarterly
- Visual and audible low battery warning

You Have Never Seen an AED like This

The Lifeline VIEW is the First AED with Full-motion Color Video

With your own eyes, see what you are supposed to do as step-by-step videos, with easily understandable voice instructions and text prompts, walk you through a rescue.

The interactive display coaches the user through defibrillation, like applying the pads, and performing CPR. Chaos, noise, and confusion are part of any SCA situation. The Lifeline VIEW makes it easy for virtually anyone to respond confidently and appropriately during an emergency.

Videos with corresponding text and voice instructions aid in comprehension

- Counts beats during the CPR period

- Frequent and automatic self-tests: Daily, weekly, monthly, and quarterly

- Non-escalating Biphasic Waveform: Adult: 150 Joules; Child / Infant: 50 Joules

- Durable: 1.2 meter drop tested

- Dust protected, spray and water resistant (rated IP55)

- Lightweight: Less than 3 lbs.
